Subject: Notification on the launch of KEA (Korea Energy Agency)

Dear Sir or Madam,

First, I want to express my deep appreciation for your continuous support to and close collaboration with KEMCO on various energy and climate change programs and projects.

As you know, KEMCO has been designing and implementing energy efficiency, new and renewable energy and climate change response policies and measures in Korea for 35 years since its establishment in 1980. KEMCO has been proud of its pivotal role in enhancing energy efficiency and contributing to wider deployment of new and renewable systems in Korea and other developing countries at the same time.

It is my great pleasure to inform you that **KEMCO will be born again as Korea Energy Agency (KEA) as of 29 July 2015** to meet various needs of domestic and overseas customers. KEA will inherit all the rights and liabilities of KEMCO. All your legal documents with KEMCO remain valid as they are.

I guarantee you that KEA will remain as your reliable companion on the way of great challenges and chances. I wish good luck on you and your businesses.

Sincerely yours

Dr. BYUN Jong-Rip
President & CEO
Korea Energy Agency
